

# UIG Workgroup Handover Plan

21 August 2020

# Background & Current Position

- ▶ It had been previously agreed that the remaining UIG Workgroup 0693 would move across to Distribution Workgroup following August's UNC Panel.
- ▶ This was on the assumption that at August's UNC Panel 0691S would be approved for Implementation and 0664V would be accepted and issued for Consultation.
- ▶ However, both Modifications were returned to Workgroup.
- ▶ Distribution Workgroup, as of August's UNC Panel, now has 3 Workgroups (0710 / 0730 and 0734S).
- ▶ There is no capacity to absorb the 3 additional UIG Workgroups into Distribution Workgroup.

# Next Steps / Options

- ▶ Confirm current position with regards to 0693 (can a Modification be raised without any further Workgroups).
- ▶ Complete 0691S action from August's UNC Panel to analyse 15 sites which will determine whether resolution sits in the form of a Modification or Process change.
- ▶ Complete 0664/0664V action from August's UNC Panel to consolidate documentation for resubmission to September's Panel.

## Options:

1. Standalone Workgroups to focus on closing out remaining UIG issues.
2. Reconvene UIG Workgroup.
