Meter By-Pass Update

PAC Meeting - 11th May 2021

Provided by:

Background

Accuracy of By-Pass flag & status:

- PAC concerned with accuracy of Meter By-Pass status on UKLink
- Shippers were asked to review affected MPRs in their portfolio and correct where necessary
- Datasets issued for 55 short codes in October 2020 (request to investigate all sites with 'Open' and up to 5 sites with 'Closed' status)
- Further analysis identified 106 MPRs at 'Open' status but with evidence of progressing reads issued to shippers in March'21 for investigation

By-Pass Consumption Adjustments:

- General absence of Consumption Adjustments (CA) following period of 'Open' By-Pass
- Xoserve now actively chasing outstanding CA's directly with relevant shipper(s)
