

## **APPLICATION FOR CONSENT TO MODIFY THE CODE**

"Revisions to the legal text for UNC Modification 0195AV"

Version 1.0

**Reference:** C031

### **Transporter Proposal**

The Joint Office of Gas Transporters would like to request that the Authority grant permission to amend the legal text as contained within the Final Modification Report (v3.0) for UNC Modification 0195AV "Introduction of Enduring NTS Exit Capacity Arrangements".

As a result of ongoing work within the Joint Office of Gas Transporters and National Grid various anomalies within the proposed text have been identified. In the main, these relate to typographical errors and changes required following the impacts associated with the implementation of other UNC modifications in the time since the original text was prepared.

This list incorporates text changes arising from Modification Proposals implemented up to, and including, 24 March 2009. It does not incorporate any text changes that may arise from Modification Proposals which are implemented after 24 March 2009 and before the implementation date for Mod 0195AV (01 April 2009).

As a consequence, the following changes to the legal text as highlighted in appendix 1 and appendix 2 are proposed.

### **Nature of Modification**

*Please refer to appendix 1 and appendix 2 for further details of the proposed changes.*

**Transporter Application**

This application contains the Transporters' proposal to modify the Uniform Network Code for which they now seek the consent of the Authority

Signed for and on behalf of Transporter.
