

**UG Data Status Summary**

At the industry meeting to discuss the revised AUG Statement held on 12 May 2017, a request was made to the AUG Expert to provide information on the data items which could change between the revised AUG Statement and publication of the final table of weighting factors. The table below lists the data types used in the calculation of the UG weighting factors and specifies which data items would result in a change to the final table if updated data or information becomes available prior to 23 June 2017.

<b>Data Item</b>	<b>Will changes be reflected in final table?</b>
SSP & LSP allocations	No
AQ History	No
LDZ Meter Errors	Yes
Meter Asset Information	No
SSP & LSP meter reads & volumes	No
Unregistered/Shipperless data	Yes
Connection Details for Orphaned Sites	No
Gas Safety Regulations Visit Data (GSR)	No
iGT CSEP data for known CSEPs	Yes
iGT CSEP data unknown projects snapshots	No
Meter capacity report	No
Theft of Gas	No
Smart Meter/AMR populations	Yes
Estimate of Shrinkage Error	Yes
