Dear Tim

Re: Modification 0279 - Improving the availability of meter read history and asset information

We are happy for our comments to be shared with other interested parties.

Gazprom Marketing and Trading-Retail supports the proposal.

We agree that the principle of making the information available to the incoming Supplier to improve the efficiency of the AQ review process is beneficial to all market participants.

By limiting the access to the relevant current Registered System User we believe concerns over appropriate access to information can be addressed.

We also note that provision of this information will also aid validation of "Modification 640" charges which cannot currently be validated.

I trust these comments are helpful. If you have any queries regarding this response please do not hesitate to contact me directly on 07590 245 256 or via email steve.mulinganie@gazprom-mt.com

Yours Sincerely

Steve Mulinganie
