0341: Manifest errors in Entry Capacity Overruns

Thank you for the opportunity to comment on this Draft Modification Report. Whilst Total E&P UK Ltd supports the principle of creating manifest error provisions in relation to entry capacity overruns, we do not believe that any UNC modification should apply retrospectively. On this basis, and whilst we endorse the remaining detail contained within this particular proposal, we cannot support its implementation.

We hope these comments are helpful to the Panel in reaching its recommendation.

Yours sincerely

(by email)

Iain McCombie
Commercial Operations Manager
