Re: UNC Modification Proposals 0353 (“Population and Maintenance of the Market Sector Code within the Supply Point Register”)

Dear Bob,

Thank you for the opportunity to comment upon this Modification Proposal. As the Proposer, Wales & West Utilities Ltd (WWU) are **fully supportive** of the implementation of Modification Proposal 0353.

The Modification Proposal sets out the nature of the proposed changes and the justification for doing so and we have nothing further to add. If any issues are raised within representations then we would be happy to try and address them where possible.

We have received a few minor comments in relation to the draft legal text and we will therefore be making some amendments and issuing final text for inclusion in the Modification Report.

Yours sincerely

{By email}
