#### Do you support or oppose implementation?

Support

#### Please summarise (in one paragraph) the key reason(s) for your support/opposition.

Implementation of Modification 0229 recognised the fact that a cross subsidy exists between the LSP and SSP market sectors. From the initial starting point of the development of modification 0229, a significant amount of time has elapsed and it is, therefore, important that this cross subsidy exists for as short a time as possible. We, therefore, support this modification which allocates costs and risks between the LSP and SSP market sectors on a more correct and equitable basis at the earliest opportunity. Due to the amount of time that has elapsed on the whole suite of modifications and development work in this area, the LSP sector has had sufficient time to build any associated costs into tariffs.

#### Are there any new or additional issues that you believe should be recorded in the Modification Report?
