| Support or oppose implementation? | Support |
| Relevant Objective: | <p>f) Positive</p> <p>This proposal fulfils relevant objective f) “promotion of efficiency in the implementation and efficiency of the Code” on the basis it aligns FGO arrangements with NEXUS arrangements as of the Project NEXUS Implementation Date “PNID”.</p> |

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

With the sequencing of FGO and Project NEXUS, it is necessary to update the legal text originally developed for FGO under UNC0565A to reflect the NEXUS arrangements as of 1st June. We are therefore supportive of this modification.

Self-Governance Statement: Please provide your views on the self-governance statement.

We believe this proposal should progress via the self governance route as transposes the post NEXUS arrangements over the previously agreed UNC0565A drafting.

Implementation: What lead-time do you wish to see prior to implementation and why?

We are supportive of this modification being implemented on June 1st in line with PNID.

Impacts and Costs: What analysis, development and ongoing costs would you face?

None under this proposal.

Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?

Yes, we have proactively engaged in the development of the legal text and believe it achieves the intent of the modification.

Are there any errors or omissions in this Modification Report that you think should be taken into account? Include details of any impacts/costs to your organisation that are directly related to this.

None identified

Please provide below any additional analysis or information to support your representation
