Document Purpose

This document is intended to provide a single view of a change as it moves through the change journey. The document is constructed in a way that enables each section to build upon the details entered in the preceding section. The level of detail is built up in an incremental manner as the project progresses.

The template is aligned to the Change Management Procedures, as defined in the CDSP Service Document. The template is designed to remove the need for duplication of information. Where information is required in one section but has been previously captured in a previous section, the previous section will be referenced.

The summary table on the front page shows the history and the current status of the Change Proposal.

Overview of proposed change			
Change Details		<p>To implement an enduring invoicing solution such that the existing interim arrangements for the invoicing of Cadent Gas and National Grid transportation charging (via a 'refund and rebill' process in respect of the National Grid elements currently contained within the Cadent invoice) is superseded by functionality that effectively separates the charges contain in the invoices.</p> <p>As a consequence, invoices from Cadent will only contain transportation charges for use of Cadent networks negating the need for the current requirement to issue a Cadent credit invoice for the National Grid charges contained in the initial Cadent invoice.</p>	
Reason(s) for proposed service change		<p>To support National Grid sale of its Gas Distribution Networks in 2017, a Transitional Solution for the separation and delivery of its Transmission and Distribution related invoices was implemented on the 1st June 2017, in summary requiring an invoice 'refund and rebill' process which is sub-optimal from a CDSP, transporter and customer perspective.</p> <p>The decision to implement a transitional solution was principally due to the criticality of the implementation of new UK Link systems and a desire not to impact / inhibit this implementation by seeking to concurrently implement the enduring invoicing solution described above.</p> <p>The interim 'refund and rebill' approach is not suitable as an enduring solution and this change request is requesting an enduring solution for the effective separation of Cadent Gas and National Grid transportation invoicing be analysed and implemented.</p>	
Status of related UNC Mod		<p>Implemented – note that notice of the disapplication of interim arrangements must be provided to shippers by National Grid in compliance with UNC Transition Document, Part IIB – New Transporter, section 5.3</p>	

Full title of related UNC Mod	0592S - Separation of National Grid Transmission and Distribution owned networks – Transitional invoicing arrangements
Benefits of change	<p>Shippers – would remove the additional administrative burden associated with processing and validation of the Cadent invoices in terms of the element relating to National Grid and the consequential Cadent credit invoice for such elements. The change would remove any risk of confusion and enhance clarity in terms of the transportation charges levied by the CDSP on behalf of the relevant Transporters.</p> <p>CDSP – would remove the need to calculate and issue credit invoices on behalf of Cadent relating to the National Grid charges issued on the initial Cadet invoice and the need for any associated bespoke processing.</p> <p>Cadent – would remove the need for Cadent to process the credit invoices relating to the National Grid charges issued on the initial Cadet invoice and negate any additional credit risk associated with confusion created for customers.</p> <p>National Grid - would negate any additional credit risk associated with confusion created for customers.</p>
Required Change Implementation Date	As soon as practicable
Please provide an assessment of the priority of this change from the perspective of the industry.	<p><input checked="" type="checkbox"/> High <input type="checkbox"/> Medium <input type="checkbox"/> Low</p> <p>Rationale for assessment:</p> <p>National Grid, Cadent and the CDSP have all received direct feedback from Shippers Users that the current arrangements are unsatisfactory and that an enduring solution should be implemented as soon as reasonably practicable.</p> <p>The key driver for not implementing an enduring solution at the outset was the perceived risk this would present to the implementation of new UK Link systems which were successfully implemented in June 2017. Given this, in National Grid's view it is now appropriate to prioritise this particular change.</p>

Appendix One: Glossary

Term	Definition
Adverse Impact	<p>A Service Change has or would have an Adverse Impact on Customers of a particular Customer Class if:</p> <p>(a) Implementing the Service Change would involve a modification of UK Link which would conflict with the provision of existing Services for which such Customer Class is a Relevant Customer Class;</p> <p>(b) the Service Change would involve the CDSP disclosing Confidential Information relating to such Customers to Customers of another Customer Class or to Third Parties;</p> <p>(c) Implementing the Service Change would conflict to a material extent with the Implementation of another Service Change (for which such Customer Class is a Relevant Customer Class) with an earlier Proposal Date and which remains Current, unless the Service Change is a Priority Service Change which (under the Priority Principles) takes priority over the other Proposed Service Change; or</p> <p>(d) Implementing the Service Change would have an Adverse Interface Impact for such Customers.</p>
General Service	A service provided under the DSC to Customers or Customers of a Customer Class on a uniform basis.
Non-Priority Service Change	A Service Change which is not a Priority Service Change
Priority Service Change	<p>A Modification Service Change;</p> <p>or</p> <p>A Service Change in respect of a Service which allows or facilitates compliance by a Customer or Customers with Law or with any document designated for the purposes of Section 173 of the Energy Act 2004 (including any such Law or document or change thereto which has been announced but not yet made).</p>
Relevant Customer class	A Customer Class is a Relevant Customer Class in relation to a Service or a Service Change where Service Charges made or to be made in respect of such Service, or the Service subject to such Service Change, are or will be payable by Customers of that Customer Class
Restricted Class Change	Where, in relation to a Service Change, not all Customer Classes are Relevant Customer Classes, the Service Change is a Restricted Class Change ;
Service Change	<p>A change to a Service provided under the DSC (not being an Additional Service), including:</p> <p>(i) the addition of a new Service or removal of an existing Service; and</p> <p>(ii) in the case of an existing Service, a change in any feature of the Service specified in the CDSP Service Description,</p> <p>and any related change to the CDSP Service Description</p>
Specific Service	A service (other than Additional Services) available under the DSC to all Customer or Customers of a Customer Class but provided to a particular Customer only upon the order of the Customer.
