

## Representation - Modification UNC 0722 (Urgent)

### Allow Users to submit Estimated Meter Reading during COVID-19

Responses invited by: **1pm on 27 April 2020**

To: [enquiries@gasgovernance.co.uk](mailto:enquiries@gasgovernance.co.uk)

*Please note submission of your representation confirms your consent for publication/circulation.*

Representative:	Lorna Lewin
Organisation:	Orsted
Date of Representation:	27 April 2020
Support or oppose implementation?	Support
Relevant Objective:	d) Positive

#### Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

The restrictions imposed by the government due to the COVID-19 pandemic has resulted in difficulties in obtaining meter readings and consequently many sites are not being reconciled. This modification creates a process utilising existing UK Link system functionality and processes to allow shippers to submit reasonable estimates to allow reconciliations to occur and so improve cost allocation.

We support the modification proposing a requirement to keep records of shipper calculations which can be used for analysis.

#### Implementation: *What lead-time do you wish to see prior to implementation and why?*

We would like to see this change implemented as soon as possible to help reduce the impact from large numbers of sites being unreconciled.

#### Impacts and Costs: *What analysis, development and ongoing costs would you face?*

We have not fully assessed the impacts to our systems and process but believe that the costs and impacts will be minimal.

#### Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes

**Are there any errors or omissions in this Modification Report that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

None identified.

**Please provide below any additional analysis or information to support your representation**
