Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We support the proposal of Mod 0788 to enable a Supplier to source gas supplies from an alternative Shipper User in the event of a Termination of a Shipper User. This is a practical option to enable the Supplier to potentially minimise the SMP (buy) cashout exposure that could be otherwise applicable. We agree 0788 results are sufficient and further or additional requirements are not suitable or required.
