National Gas Transmission¹ invites you to take part in the 2023 Annual Quarterly System Entry Capacity (QSEC) auction which will take place on Business Days from the **20th March 2023** to the **31st March 2023**. The auction is for Quarterly Firm NTS Entry Capacity for the transaction period **1st October 2024** to **30th September 2039**. The provisions of the Uniform Network Code (UNC)² shall apply to this invitation, the 2023 auction for QSEC and any bids made and rejected or accepted pursuant to such auction, and any subsequent allocation of QSEC. Words and expressions which are capitalised but not defined in this invitation, but which are defined in the UNC shall have the meanings given to them in the UNC.

Please refer to the Joint Office of Gas Transporters website (<http://www.gasgovernance.co.uk/livemods>) with regards to any modification of the UNC which may affect capacity during the transaction period.

Each bidding window in the QSEC auction will commence at 08:00 and close at 17:00 on each day specified below, subject to the stability measure being reached. A QSEC bid may be withdrawn or amended until but not after 17:00 on each day³.

¹Pursuant to Section B 2.2.1(d) of the Transportation Principal Document (TPD) of the Uniform Network Code (UNC), National Grid Gas plc ("National Grid") in its role as holder of the Gas Transporter Licence in respect of the National Transmission System (NTS) (the "Licence").

²Including in particular, but not limited to, TPD Section B of the UNC.

³As specified in TPD Section B 2.2.9(b) of the UNC.

⁴ In accordance with the provisions of the UNC and, in particular, TPD Section B2.2.17.

National Gas Transmission reserves the right to amend the auction timings, withdraw and re-issue the auction invitation. Furthermore, although unlikely, National Gas Transmission reserves the right to raise UNC Modifications, requesting urgency or otherwise.

Entry Capacity Regime

It is a User's responsibility to understand the NTS Entry Capacity regime, determine a strategy and bid accordingly. For further information on the regime and QSEC auctions please refer to Appendix 3 onwards.

As stated previously, please refer to the Joint Office of Gas Transporters website with regards to any outstanding modifications which may affect capacity during this transaction period via:

<http://www.gasgovernance.co.uk/livemods>.

Entry Capacity Retainers

In accordance with the NTS Entry Capacity Substitution (ECS) Methodology Statement , National Gas Transmission opened the retainer window on 17th & 19th January 2023, for Shippers to participate and take out a retainer at Aggregated System Entry Points (ASEPs), where they wanted to exclude available Entry Capacity from being treated as Substitutable Capacity⁵ without having to buy it.

There were no retainers requested during the retainer windows on the dates above.

NTS Entry Capacity Offered

National Gas Transmission invites offers in respect of the Unsold NTS Entry Capacity⁶, as shown in Appendix 2.

Requests for Incremental Obligated Entry Capacity (IOEC) that cannot be met through substitution may be allocated as Non-Obligated Incremental Entry Capacity at the sole discretion of National Gas Transmission.

Entry Capacity Substitution

The NTS Entry Capacity Substitution Methodology Statement can be found via the following link:
<https://www.nationalgrid.com/uk/gas-transmission/capacity/capacity-methodology-statements>

The principle of NTS Entry Capacity Substitution may be applied to meet demand for Incremental Obligated Entry Capacity (IOEC) in the March 2023 QSEC auction. Entry Capacity Substitution means that where IOEC is required, this should first be met by reducing Available Obligated Entry Capacity at other ASEPs (the "donor" ASEPs) where capacity is unsold and not otherwise excluded from substitution, before undertaking investment in new infrastructure. The result of this is that, when the substitution obligation is applied, NTS Entry Capacity that is not booked can be moved to other ("recipient") ASEPs and will not be available as unsold obligated capacity at the original (donor) ASEP in future auctions. In addition to this, capacity that has been reserved under the Planning and Advanced Reservation of Capacity Agreement (PARCA) process will be excluded from substitution.

⁵ As defined in the NTS ECS Methodology Statement.

⁶ In accordance with its obligation pursuant to UNC TPD Section B2.2.

Whilst National Gas Transmission may be able to satisfy a request for capacity via the release of non-obligated capacity, or via substitution, the only way to guarantee release of incremental capacity is via the PARCA process.

Information Provision

Information will be published by National Gas Transmission after each Interim Bid Window (IBW) on each Business Day the auction remains open, for each Aggregate System Entry Point (ASEP) and each relevant quarter. This can be found on Gemini report screens (Product > Publish Results > MoS Results > screens) and will be available by 20:00⁷, and on the National Gas Transmission website as soon as practicable via the following link and by selecting the following criteria:
