

APPLICATION FOR CONSENT TO MODIFY THE NETWORK CODE

"Amendments to LNG Services from 2003/4"
Version 2.0

Reference: C091

Transco Proposal

To address a text error within Section Z, paragraph 2.3.2, as contained within the legal text fields in both the Final Modification Report (v1.0) and Notice of Implementation (v1.0) for Modification **0608 "Amendments to LNG Services from 2003/4"**.

The error has come to light as a consequence of the 'staggered' implementation of modifications 0654 "Notification of LNG Storage Duration" (*implemented with effect from 23/12/2003*) & 0608 (*implemented with effect from 01/04/2004*), where both modifications aspired to amend the same paragraph Z2.3.2 and subsequently the insertion of text from 0608 has over written the intention of 0654.

The legal text now contained within the Final Modification Report and Implementation Notice 0608 requires amending as clearly identified below.

Nature of Modification

Text extracted from the Notice of (Future) Implementation 0608 (v1.0) published 29/08/2003 & Notice of Implementation 0654 (v1.0) published 22/12/2003.

Amend Section Z2.3.2 to read as follows:

~~"Where a User applies under this Section Z for Storage Capacity, the Storage Duration applied for shall be 5 (but the Storage Duration which a User is registered as holding may differ in accordance with paragraph 2.9)."~~

"Where a User applies under this Section Z for Storage Capacity the Storage Duration of the Storage Capacity applied for shall be that specified in the Annual Storage Invitation (but the Storage Duration of the Storage Capacity which a User is registered as holding may differ in accordance with paragraph 2.9)."

Transco Application

This application for consent contains Transco's proposal to modify the Network Code and Transco now seeks direction from the Authority in accordance with this application.

Signed for and on behalf of Transco.
