

Transco General Notice

"Release of the Identity of the Incoming Shipper/Supplier to Incumbent upon Supply Point
Transfer Processes"
Version 1.0

IMPORTANT INFORMATION FOR YOUR ATTENTION

CONTINUED DEFERRAL OF IMPLEMENTATION - MODIFICATION PROPOSAL No's:

0487 "Release of the Identity of the Incoming Shipper/Supplier to Incumbent upon Supply Point
Transfer Processes",

0591 "Introduction of Change of Tenancy Marker to the Confirmation/Registration process" &
0602 "Amendment to the required date range for opening meter reads".

Dear Colleague(s)

A pre-requisite for the implementation of the above modifications is the release of systems changes relating to Transco metering separation ('cutover') currently planned for 2004.

You will be aware that the 'cutover' date has moved on a number of occasions and consequently implementation of Modification Proposals 0487, 0591 & 0602 will no longer be applicable on the date previously indicated in their respective Notices of Implementation.

Transco is continuing to discuss these matters with Ofgem and will write to you again in the near future, however at this moment in time Implementation of the above modifications is not expected until 2004.

Revised Notices of Implementation will be issued once a new date has been firmly established.

Yours sincerely,

Julian Majdanski
Modification Panel Secretary.
