

## **November 2013 Ad Hoc Invitation**

### **Northern Gas Networks' Interruption Requirements**

#### **Introduction**

In March 2007, Ofgem announced its intention to modify the regime for interruptible contracts. These revised arrangements took effect from 1<sup>st</sup> April 2008 and allow Distribution Networks to publish their specific interruption requirements and invite offers for interruptible terms through a tender process. The next auction will take place between 25<sup>th</sup> and 29<sup>th</sup> November 2013, and will cover the period from 1<sup>st</sup> October 2017 to 30<sup>th</sup> September 2021.

#### **Northern Gas Networks' Interruption Requirements**

NGN requires interruption in 1 geographic zone. The zone where interruption is required and the number of days of interruption per year for the zone are shown on the map and table in Appendix A, and can also be found on our website at [www.northerngasnetworks.co.uk/cms/232.html](http://www.northerngasnetworks.co.uk/cms/232.html) on the "Interruption Reform" page on NGN's website.

To assist further, all postcodes within an NGN zone requiring interruption and containing at least one eligible supply point are shown in Appendix B or can be found at the website described above.

#### **Eligibility**

All supply points with a registered Annual Quantity (AQ) greater than 5,860,000 kWh (200,000 therms) are eligible to make an offer, whether or not they are currently Interruptible, Firm, Daily Metered (DM) or Non-daily metered (NDM). Any supply point whose offer is accepted must be Daily Metered and be able to interrupt their supply when instructed by the first day of the interruption contract period.

#### **Offers and Acceptance**

Details of the bidding process have been sent by Xoserve to all shippers with eligible supply points within NGN's area. Offers should consist of an Interruption Option price (in pence per kWh) and an Interruption Exercise price (in pence per kWh per day). An Interruption Calculator has been developed to assist in preparing offers, and can be accessed via NGN's website using the link above.

Interruption offers must be for a whole number of days. The required number of days for the 2013 ad hoc process is 11 in Zone 11 as specified in the chart in Appendix A. There is no requirement for interruption in any other zone.

Offers can be made for any number of years from 1 to 4, but these must be consecutive (e.g. an offer for three years commencing October 2017 is allowable, but an offer for two years, the first commencing October 2017 and the second commencing October 2019 is not).

In Zone 11, offers will be considered for years 2017/18 to 2020/21. There are no additional interruption requirements for the years up to 2016/17 over and above the interruption contracts already in place.

Multiple offers may be made for a single supply point.

Offers for a single supply point may be made in tranches, but the minimum tranche size is for an AQ of 5,860,000 kWh (i.e. the minimum tranche size is 16,000 kWh per day). Where offers are made in tranches, the hourly consumption for each tranche (SHQ) must be provided. The maximum allowable number of tranches for a single supply point is nine.

Linked offers may be made for a single supply point provided they each meet the eligibility criteria. The appropriate SHQ should be provided for each linked offer.

NGN will assess all eligible offers in accordance with the DN Interruptible Capacity Methodology Statement. A copy of this document can be found on the Joint Office website at

[http://www.gasgovernance.co.uk/sites/default/files/InterruptibleCapacityMethodologyStatement\\_0.pdf](http://www.gasgovernance.co.uk/sites/default/files/InterruptibleCapacityMethodologyStatement_0.pdf)

From 1st October 2011 all supply points have been considered Firm for DN transportation purposes, paying Firm LDZ capacity and commodity charges. Shippers for those sites whose interruption offers are accepted will receive payments based on their Option and Exercise prices. Payment for the Option price will be made monthly in arrears for the year(s) covered by the contract. The Exercise price will be paid each time the site is interrupted by the DN.

#### Key Dates for the November 2013 Ad Hoc Interruption Tender Process

20<sup>th</sup> November 2013 – Interruption Requirements published to shippers via Xoserve

25<sup>th</sup> November 2013 – Offer window opens

29<sup>th</sup> November 2013 – Offer window closes (17:00 GMT)

18<sup>th</sup> December 2013 – Tender results notified to shippers by Xoserve

#### Further Information

NGN is keen to encourage tenders for interruption and we are happy to meet with any shippers or customers to discuss any issues relating to the interruption process.

Further information is available at [www.northerngasnetworks.co.uk/cms/232.html](http://www.northerngasnetworks.co.uk/cms/232.html).

## Appendix A

### Interruption Zones for November 2013 Ad Hoc Tenders

Year	Zones Where Tenders Invited
2016/17	None
2017/18	11
2018/19	11
2019/20	11
2020/21	11

## **Interruption Requirements 2017/18 to 2020/21 (Y+5 to Y+8)**

Capacities in kWh/day

Zone	Description	Applicable period (Y+5 = 1 Oct 2017 - 30 Sept 2018)	Total Number of Interruption Days Required per Year	Aggregate Interruptible Capacity Required	Period 1 (days)	Minimum Capacity required in Period 1	Period 2 (days)	Minimum Capacity required in Period 2	Period 3 (days)	Minimum Capacity required in Period 3
GT3131011	Vale of York	Y+4	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a
		Y+5 to Y+8	11	54,467	11	54,467	Single period of 11 days only required			

### **NB**

Vale of York - For Y+4 (2016/17) contracts for interruption are already in place for this zone. No additional interruption is required for this year.
