*Dear Richard,*

**URGENT MODIFICATION PROPOSALS (0002, 0002A, 0004)**

Thank you for your communication of 5 March 1996. Since to date our discussions have been purely verbal I thought it sensible to confirm in writing that Ofgas accepts that the above listed modification proposals should be treated as urgent modification proposals. I can also confirm that Ofgas does not consider that modification proposal 0003 should be treated as an urgent modification proposal.

Yours sincerely

  
Sean O'Hara  
Network Operations
