

MODIFICATION PROPOSAL

Date: 15th March 1996

Proposed implementation date: As soon as possible.

Urgency: URGENT

Justification: Limited participation by Users in the flexibility mechanism and volumes of beach gas required to address system imbalances has not been available.

AREA OF NETWORK CODE CONCERNED

Transition Document, Part II, Section 8, and Principal Document B 2.5.3.

NATURE OF PROPOSAL

It is proposed that until the end of March 1996, the Flexibility Overrun Charge Relevant Multiplier (see Principal Document, Section B, paragraph 2.5.3) be 5 (rather than 30).

PURPOSE OF PROPOSAL

The intent of this proposal is to encourage flexibility mechanism bids.
