Dear Colleague,

**Modification 0309 Close Out of Reconciled Gas Phase 2  
Consultation**

Please find enclosed revised drafts of the Modification legal text and Full and Final Agreement. Any amendments should broadly reflect comments raised during phase 1 of the consultation and further developments arising within Close Out since 12 January.

The aim of phase 2 is to allow Shippers to make final representations on both the Modification Proposal and Full and Final Agreement. Although the two documents are issued together, we would appreciate separate responses on the Proposal and Full and Final Agreement. This is to allow work on the Modification Report and Full and Final Agreement to be completed independently.

The revised timetable is as follows:

- 1 February, 1999 - Phase 2 consultation begins
- 8 February, 1999 - Representations close
- 12 February, 1999 - Final Modification Report to Ofgas
- 19 February, 1999 - Ofgas decision

If you would like to discuss any of the above please contact me on 0121 623 2393.

Yours sincerely
