

**TRANSCO NETWORK CODE MODIFICATION PROPOSAL No.**

**SHORT TITLE:** Consolidation of Section G1.6 (AQs)

**DATE:** **PROPOSED IMPLEMENTATION** July 1999  
**DATE:**

**URGENCY:** Non urgent

**NATURE OF PROPOSAL:**

It is proposed that Section G1.6 of the Network Code Principal Document be redrafted to reflect the AQ review process that is expected to operate this year. At the moment, the basis for the proposed AQ review process exists only in the Transition Document and is date specific, applying only to the review undertaken in 1998.

**PURPOSE OF PROPOSAL:**

In 1998, Modification 0136 introduced an AQ process that simplified the mechanism by which Transco's proposed AQ (provisional) values could be amended by the shipper. This mechanism allowed the amendment to be processed without resorting to an appeal and also gave shippers more time to review the provisional values than Section G1.6 allowed. The review in 1998 was generally viewed as a considerable improvement over that which took place in 1997 and the purpose of the proposal is to enable it to become the model for future reviews.

**CONSEQUENCE OF NOT MAKING THIS CHANGE:**

The existing provisions of Section G1.6 will continue to apply.

**AREA OF NETWORK CODE CONCERNED:**

Principal Document G1.6 and deletion of a number of paragraphs in Section 7 of the Transition Document.

**IDENTITY OF PROPOSER'S REPRESENTATIVE:** Alan Raper

**PROPOSER:** Tim Davis

**SIGNATURE:**   
**POSITION:** Manager, Network Code  
**COMPANY:** Transco
