

# UNC 0663:

Mod Title: Extending the data comprised under the definition of Supply Point Premises Data (TPD V5.18.1)

Proposer: Colin Blair, Scottish Power

Panel Date: 18 July 2018

# Why change? – Market Intelligence Service (MIS) background

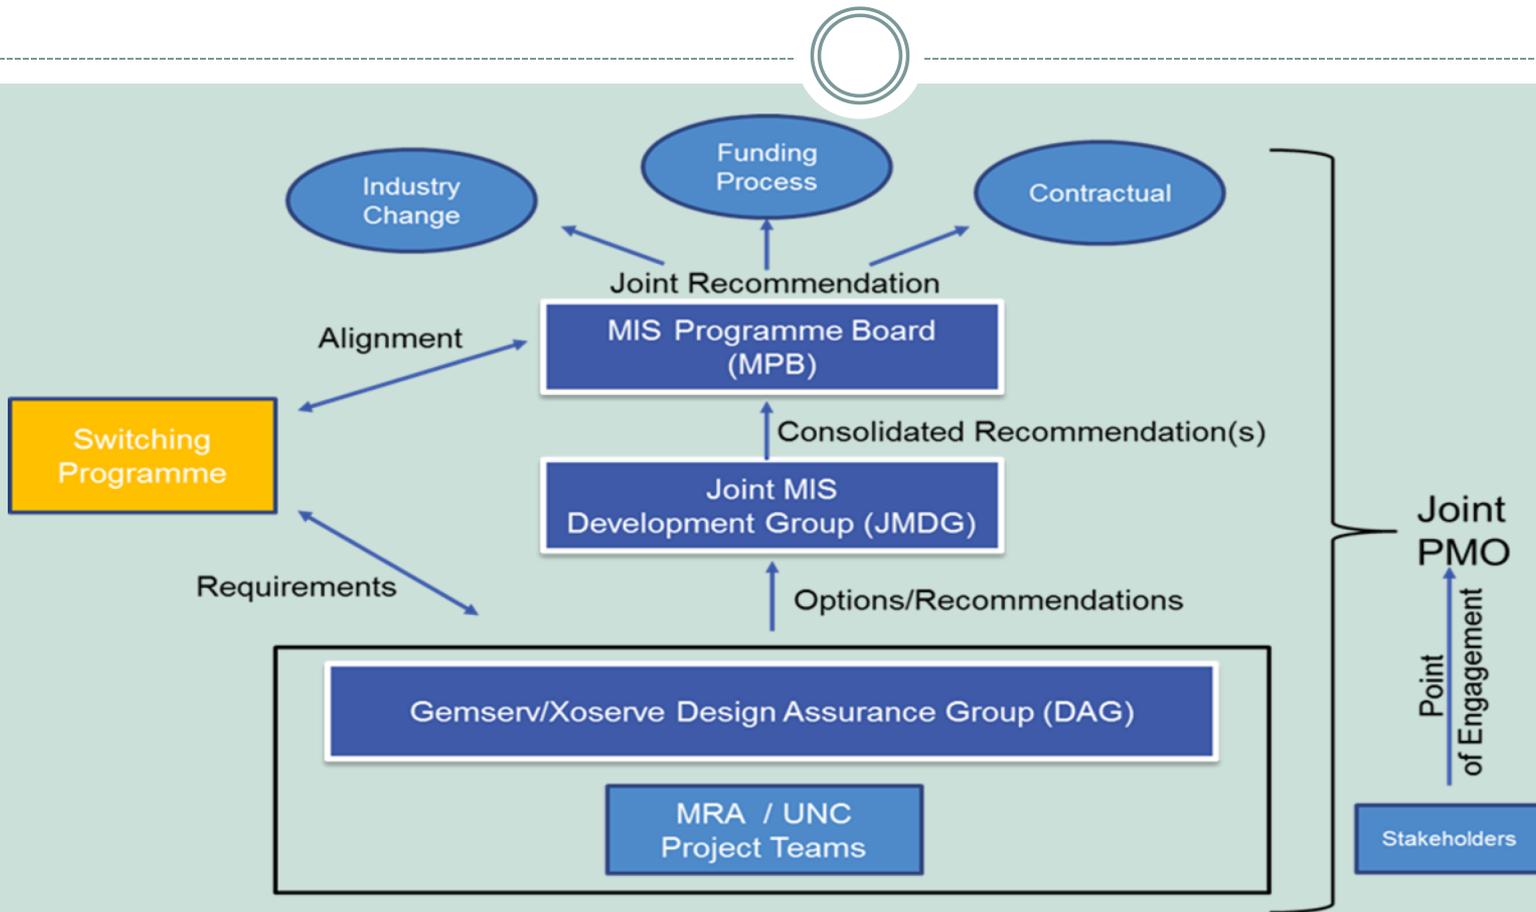

The Ofgem Switching Programme set out 4 reform packages:

1. Do nothing
2. Enhance existing
3. CSS
4. CSS and MIS

RP0	RP1	RP2	RP3
No system or process changes. No Improvement to reliable switching. 21 day switch.	Use existing systems. Address matching to improve reliability. Key Process changes (harmonised where possible) to deliver 3 to 7 day switch.	New central switching service (core data). Enduring reliability improvement to data quality. Harmonised and simplified next day switching process.	New central switching service and market intelligence services. Enduring reliability improvement, and improved access to broader range of switching data. Harmonised and simplified next day switching process.

- As a result of the consultation Ofgem refined option 2 and the new option became 2A, and determined that the industry was best placed to develop and fund the MIS services
- Ofgem then asked Xoserve and Gemserv to take forward the MIS initiative

# Why change? – MIS governance background

Gas representation established under the Data Services Contract Change Management Committee

# Why change? – Use case background

- JMDG developed use case for Supplier access to gas and electricity data via API
- Purpose to support Suppliers in:
  - Provide quotation services to customer
  - Improve the quality of the switch request into UK Link
  - Improved creation of customer account on Supplier records
- JMDG recommended service to MIS Programme Board
- MIS Programme Board agreed and approved
- MIS Programme Board (gas) sponsoring UNC modification to give effect to use case delivery
- Modification required to permit release of data to Suppliers

# Options

- Prepared along same lines as Modification 0640S: Provision of access to Domestic Consumer data for Suppliers
- Commercial arrangements same as developed under Modification 0640S
- Extension of data items and to non-domestic data
- Mod limits permission to Suppliers, not PCW or TPI

# Solution

Amend UNC text to permit release of data to Suppliers

# Recommended Steps

- The Proposer recommends that this modification should be:
  - Subject to self-governance
  - Workgroup assessment to develop the modification for 2 months
