

Morning

The following action was assigned to National Grid at the last Review Group meeting in Aug 2018.

New Action 0805: Reference Redundant Assets – National Grid (EB/SR) to look to identify a potential disputes process for consideration at the next Workgroup meeting.

On reviewing the Uniform Network Code General Terms there is already a section on dispute resolution relating to the Code, the Framework Agreement, any Ancillary Agreement or any Supplemental Agreement.

I have attached a link to the document for reference.

New Action 806: Reference Issues Spreadsheet – All parties to review the spreadsheet and provide suitable feedback for consideration at the next Workgroup meeting.

National Grid has added a comments column to the spreadsheet provided by Cadent on the issues they are looking to address.

Regards
