

# UNC 0770:

Mod Title: Amendments to legal text numbering  
for UNC0701

Proposer: Tracey Saunders – Northern Gas Networks

Panel Date: 17 June 2021

# Why change?

Due to timings of Panel recommendations, implementations and Authority direction there is now a misalignment of code references.

1. **May 2020** - UNC0701 (Aligning capacity booking under the UNC and arrangements set out in relevant NExAs) was recommended for implementation by UNC Panel.
2. **July 2020** - UNC0708 (Re-ordering of the UNC in advance of Faster Switching) was implemented.
3. **May 2021** - UNC0701 was approved for implementation by Ofgem

This above sequence has resulting in the 0701 legal text numbering being misaligned with current code.

# Options

- Raise a Fast Track Self Governance modification to update the legal text numbering and references in 0701, so that they align with current UNC
- Raise a Self Governance modification – however as this is a purely administrative change, this meets the FTSG criteria
- Do Nothing – this will result in 0701 being unable to be implemented.

# Solution

*Please use bullets to briefly outline the solution contained within the modification.*

- To amend the numbering of the legal text of, and associated references within, UNC0701 via this modification

# Recommended Steps

*Please use bullets to summarise the recommended steps. Please indicate how long you think the assessment process should last and if self-governance should apply or not.*

- **The Proposer recommends that this modification should be:**

*(delete as appropriate)*

- Subject to Fast Track self-governance because:
  - It is a housekeeping modification.
  - It is of an administrative nature only as it is updating out of date references within and to other documents or paragraphs.
