

Report for Network Code Committee

August 2007

UK Link Committee

Meetings Held

9 August 2007

Planned

13 September 2007

Matters for Network Code Committee's Attention

UK Link Committee members failed to reach a consensus with regard to approving implementation of CR 13829 "DN Interruption Reform".

UK Link Modifications Activity

The following UK Link Modifications, referred to the UK Link Committee, were discussed:

UK Link Modifications Discussed

13829 DN Interruption Reform

Extensive discussions took place, especially in respect of issuing a report on sites with interruptible contracts once the auctions had been concluded. The Transporters advised that they are awaiting a legal view on this aspect.

xoserve sought approval to implement the change, believing it to be reflective of the requirements of UNC Modification Proposal 0090, but the Committee failed to reach a consensus. In response, the Transporters informed the members of their intention to proceed with the implementation in accordance with the provisions as outlined in the Uniform Network Code Section U8.4.5.

Subsequently a Notice of Implementation was issued on behalf of Transporters by the Joint Office of Gas Transporters on Friday 10 August 2007.

13839 Gemini Oracle Software Upgrade

xoserve gave an update on progress, including the associated outage requirements.

Topic Discussed

008UKL 'UK Link Technology Refresh'

xoserve gave a further presentation. The Committee discussed the planning dates for the Shipper Trials and xoserve advised that these are currently under consideration. xoserve will provide a further update at the September 2007 meeting.

UK Link Committee – UK Link Modification Status Report – August 2007
