

## Action DE1045

Consider whether standard domestic profile is applicable across the whole band

DESC 11<sup>th</sup> November 2008

# Action DE1045: Band 1 – Analysis so far

---

- DESC ACTION: xoserve to consider carrying out analysis on whether the standard domestic profile is applicable across the whole band
- Analysis already undertaken for Band 1
  - Splitting 0 to 20 and 20 to 73.2 MWh pa – Autumn '07
  - Splitting 0 to 30 and 30 to 73.2 MWh pa
  - Splitting 0 to 10, 10 to 20, 20 to 30, 30 to 73.2 MWh pa – Spring '07
- No compelling statistical grounds for altering 0-73.2 MWh pa consumption range by applying two sub-bands or four sub bands

# Action DE1045: Band 1 – Further Analysis

---

- Analysis for Nov DESC 08
  - Alternative breakpoint over range 0-293 MWh p.a (Bands 1 & 2)
- Analysis for Jan DESC 09
  - Suitability of “Domestic” and/or “I&C” models to Bands 01B and 02B
- Workplan items above should provide analysis to meet action DE1045 requirements
