#### **Matters for Network Code Committee's Attention**

None.

#### **Matters discussed**

- Re-evaluation of model smoothing: The analysis presented was the first full assessment of the model smoothing results since 2005 and will inform the decisions made on the approach and application of model smoothing for Spring 2008.
- Re-evaluation of NDM Sampling and sizes: Annual review.
- Work plan 2007/2008.
