Matters for Committee's Attention

Letter sent to Ofgem expressing the concerns of the EBCC that Ofgem has still not revoked Utilita's Shipper Licence despite the winding up petition being granted by the Court on 6 June 2006.

UGS were terminated from UNC with effect from 12 January 2006 however the final supply point was not removed from the portfolio until 21 June 2006, resulting in ongoing charges being incurred by the Shipping Community until this date. Although the values were small, the principal is important and in another case the values could be far greater.
