13718 'Issue of M Number Disk in DVD-R Format'

This was implemented on 01/07/06

'Revert to 10 day Cyclic Meter Reading Validation Routine

This was implemented

#### Topics Discussed

004UKL 'UK Link Testing Arrangements'

Following the request from the Governance Workstream for the Joint Office to prepare a paper identifying the way forward, the Committee discussed its views. A User would be able to propose a UNC Modification to introduce a test environment once current Modification Proposal 0091 had been approved and the Committee agreed that this was a logical way forward. Certain members did not believe that they would use a test environment of this nature and therefore would be unwilling to fund it. Others were still willing to consider the possibility. Discussion, therefore, centred on how a voluntary system might work. The Joint Office have submitted a short paper to the Governance Workstream that reflects these discussions.

006UKL 'Gemini Performance Monitoring'

The Transporters identified that there may be some slippage in the delivery of this. They agreed to provide an update at the August meeting.

007UKL 'Release governance procedures'

The Transporters confirmed that contact, in the event of a suspension of a change, would be made by telephone but they were reviewing other options.
