Dear Bob

**Re: Modification 0297 Extending Rights to Protected Information Provision for Meter Asset Managers / Registered Metering Applicants**

We are happy for our comments to be shared with other interested parties.

Gazprom Marketing and Trading Retail support the proposal as we believe the provision of information to a relevant party can greatly assist with the efficient operation of the competitive Metering Market.

We believe it is appropriate that information is only made available to the relevant party where they can demonstrate that they were the relevant party for that particular period relating to their request.

I trust these comments are helpful. If you have any queries regarding this response please do not hesitate to contact me directly.

Yours Sincerely

Steve Mulinganie  
Regulation & Compliance Manager
