5th August 2010

Dear Tim,

UNC Modification Proposal 0297: “Extending Rights to Protected Information Provisions for Meter Asset Managers/Registered Metering Applicants”

RWE Npower supports Proposal 0297.

We believe that rights to protected information provision should be extended to MAMs/RMAs, as this will bring the gas and electricity processes into line and facilitate dual fuel service provision.

It will also ease bottlenecks that currently arise from time to time in the process of obtaining and sharing information between market participants.

We do not believe that there are any associated risks, issues or impact on Data Protection issues from extending these provisions.

If you wish to discuss any points raised in this response further, please do not hesitate to contact me.

Regards,

Sent by email so not signed
