UK Link Manual

Table of legally binding provisions

Paragraph 1.5.4 of the UK Link Manual Framework Document states that for the purposes of GT Section D5.2.3 and notwithstanding Clause 3.3 of the DSC Terms and Conditions (in so far as it refers to the UK Link Manual) the parts of the UK Link Manual which establish obligations with which UK Link Users must comply are: (a) the UK Link terms and conditions; and (b) those provisions of any other Component Document which are expressed to establish such obligations and which are identified as such in the relevant UK Link Component Document.

This means it is necessary to expressly state in each Component Document whether or not it is legally binding.

The table below sets out the proposed status of each Component Document and the wording to be included in the Component Documents. Please note that this approach applies the classification (binding/ not binding) at the level of the individual document, and not at the level of individual paragraphs in each document.
