#### **Document Purpose**

This document is intended to provide a single view of a change as it moves through the change journey. The document is constructed in a way that enables each section to build upon the details entered in the preceding section. The level of detail is built up in an incremental manner as the project progresses.

The template is aligned to the Change Management Procedures, as defined in the CDSP Service Document. The template is designed to remove the need for duplication of information. Where information is required in one section but has been previously captured in a previous section, the previous section will be referenced.

The summary table on the front page shows the history and the current status of the Change Proposal.

		Overview	of proposed change		
Change Details		Where, following an AQ calculation, the calculated AQ is a negative value the AQ is defaulted to a value of 1 in accordance with the Nexus business requirments. It is proposed that the prevailing AQ is carried forward (and prevailing SOQ where SMP is Class 3 or 4).			
Reason(s) for proposed service change		For those supply meter points impacted, gas allocation is understated and subsequently un-identified gas is overstated.  In addition, an AQ of 1 (that is not reflective of the actual usage) could result in future reads failing the tolerance validation. Where this occurs the supply meter point will not be reconciled, thus preventing settlement and preventing calculation of a new AQ.			
Status of related UNC Mod		NA

NA

#### Specific Service Changes Only:

Please detail the proposed methodology (or amendment to the existing methodology) for determining Specific Service Change Charges.

NA

Please detail the proposed basis (that is, Charging Measure and Charging Period) for determining Specific Service Change Charges in respect of the Specific Service.

NA

#### Impacts to UKLink System or File Formats

Impacts to AQ calculation in UK Link

**Impacts UKL Manual Appendix 5b** 

Impacts to Gemini System

Please give any other relevant information.

Recipient	Email
Xoserve Portfolio Office	changeorders@xoserve.com
Change Management Committee Secretary	dsccomms@gasgovernance.co.uk

### Section 3: ROM Request Acceptance

Is there sufficient detail within the ROM Request to enable a ROM Analysis to be produced?	⊠Yes □No
If no, please define the additional details that are required.	

If the ROM Request is not accepted. Please forward this document to the Portfolio Office for onward transmission to the Change Management Committee

### Section 4: ROM Analysis

This ROM is Xoserve's response to the above Evaluation Service Request. The response is intended to support customer involvement in the development of industry changes.

Should the request obtain approval for continuance then a Change Proposal must be raised for any further analysis / development.

#### Disclaimer:

This ROM Analysis has been prepared in good faith by Xoserve Limited but by its very nature is only able to contain indicative information and estimates (including without limitation those of time, resource and cost) based on the circumstances known to Xoserve at the time of its preparation. Xoserve accordingly makes no representations of accuracy or completeness and any representations as may be implied are expressly excluded (except always for fraudulent misrepresentation).

Where Xoserve becomes aware of any inaccuracies or omissions in, or updates required to, this Report it shall notify the Network Operators' Representative as soon as reasonably practicable but Xoserve shall have no liability in respect of any such inaccuracy or omission and any such liability as may be implied by law or otherwise is expressly excluded.

This Report does not, and is not intended to; create any contractual or other legal obligation on Xoserve.

© 2017 Xoserve Ltd

All rights reserved.

#### **ROM Analysis**

#### **Change Assessment**

Where, following an AQ calculation, the calculated AQ is a negative value the AQ is defaulted to a value of 1 in accordance with the Nexus business requirments. It is proposed that the prevailing AQ is carried forward (and prevailing SOQ where SMP is Class 3 or 4).

#### **Change Impact:**

- Supply Meter Point AQ Calculation Program.
- Configuration of new failure codes.
- Changes for sending NRL file

#### **Change Costs (implementation):**

The solution will cost at least £15k but probably not more than £20k to develop.

Initial Analysis suggests the change will impact Service Area 6.

#### Change Costs (on-going):

Assessment of the On-going costs has not been possible in the timescale of this urgent Impact Assessment

#### Timescales:

It is anticipated that this change will be delivered in October 2017

#### **Assumptions:**

The change will be implemented within the New UK Link SAP system

#### Dependencies:

No material dependencies have been identified at this time

#### Constraints:

This Change will be prospective and will not fix the current population of AQ1s.

## Appendix One: Glossary

Term	Definition
Adverse Impact	A Service Change has or would have an Adverse Impact on Customers of a particular
	Customer Class if:
	(a) Implementing the Service Change would involve a modification of UK Link which
	would conflict with the provision of existing Services for which such Customer Class is a Relevant Customer Class;
	(b) the Service Change would involve the CDSP disclosing Confidential Information
	relating to such Customers to Customers of another Customer Class or to Third Parties;
	(c) Implementing the Service Change would conflict to a material extent with the
	Implementation of another Service Change (for which such Customer Class is a
	Relevant Customer Class) with an earlier Proposal Date and which remains Current,
	unless the Service Change is a Priority Service Change which (under the Priority
	Principles) takes priority over the other Proposed Service Change; or
	(d) Implementing the Service Change would have an Adverse Interface Impact for such
	Customers.
General Service	A service provided under the DSC to Customers or Customers of a Customer Class on
	a uniform basis.
Non-Priority	A Service Change which is not a Priority Service Change
