Support or oppose implementation?	Support
Relevant Objective:	d) Positive f) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We support the introduction of AQ reporting to the PARR. The addition of AQ reports to the PARR schedules would be an important enhancement to the reporting suite, and would further support PAC in monitoring industry trends and movements in relation to UIG.

Self-Governance Statement: *Please provide your views on the self-governance statement.*

This change is an amendment to the existing PARR schedule, and as such we agree with self-governance status for the modification.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

We would like this to be implemented immediately to allow the CDSP time to create the relevant reports as soon as possible.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

No shipper costs have been identified.

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

No comments.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

None identified.

Please provide below any additional analysis or information to support your representation

No further points to add.
