Support or oppose implementation?	Support
Relevant Objectives:	f) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

It is appropriate Xoserve should be allowed to fully participate in the CSS tender process as recognised by Ofgem in the outline business case. This modification removes the barriers that would otherwise prevent Xoserve from engaging in the tender process and provide the CSS solution if selected.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

This modification needs to be implemented as soon as possible so as to not hinder the tendering process.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

At this stage, this modification will not result in a significant additional cost to our members.

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

We have not reviewed the legal text.

Are there any errors or omissions in this Modification that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

None.

Please provide below any additional analysis or information to support your representation

None
