#### Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

The EIUG supports the enhancements proposed to the gas DSR arrangements, including a D-5 product. The proposals allow more large gas uses to bid in DSR volumes, provide more certainty and clarity to large gas users and a longer lead time to adjust to their manufacturing process. These proposals are likely to lead to a great volume of gas to bid in to the gas DSR product.

#### Implementation: *What lead-time do you wish to see prior to implementation and why?*

The EIUG agrees with the timetable that National Grid Gas is following.

#### Impacts and Costs: *What analysis, development and ongoing costs would you face?*

The EIUG does not expect any significant cost to large gas users compared to the current gas DSR arrangements.

#### Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes

**Are there any errors or omissions in this Modification Report that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

N/A

**Please provide below any additional analysis or information to support your representation**
