Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

WWU Supports this modification as we think it is essential, particularly in light of the recent P1 incident, to reduce the risk associated with the faster switching service and the resolution of missing messages. This will provide assurance to consumers and the associated follow on processes. We believe this modification furthers relevant objective d) Securing of effective competition: (i) between relevant shippers; (ii) between relevant suppliers; and/or (iii) between DN operators (who have entered into transportation arrangements with other relevant gas transporters) and relevant shippers, and relevant objective f) Promotion of efficiency in the implementation and administration of the Code.
