#### Reason for support: Please summarise (in one paragraph) the key reason(s)

We are in support of this change as it looks to amend existing reporting where it is either duplicated across code or is no longer fit for purpose. The streamlining of the reports will provide benefit in the development of the Retail Energy Code (REC) as it will avoid the risk of SPAA obligations moving to REC and causing duplication of governance arrangements with the UNC.

#### Self-Governance Statement: *Please provide your views on the self-governance statement.*

We support this modification being subject to self-governance as this has no consumer impact.

#### Implementation: *What lead-time do you wish to see prior to implementation and why?*

As this is an amendment to existing reporting to remove duplication we support implementation sixteen days after panel decision.

#### Impacts and Costs: *What analysis, development and ongoing costs would you face?*

No identified

#### Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*
