<b>Representative:</b>	Andy Miller
<b>Organisation:</b>	Xoserve Ltd
<b>Date of Representation:</b>	6 <sup>th</sup> February 2017
<b>Support or oppose implementation?</b>	Support/Oppose/Qualified Support/Comments* <i>delete as appropriate</i>  0602 - Oppose  0602A - Support
<b>Alternate preference:</b>	<i>If either 0602 or 0602A were to be implemented, which would be your preference?</i>  0602A
<b>Relevant Objective:</b>	f) Positive for 602A

#### Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

Modification 602 cannot be implemented in the UK Link system without negatively impacting the Project Nexus Implementation Date. Modification 602A can be implemented without impact to the Project Nexus Implementation Date. Modification 602A positively supports the relevant objective f) Promotion of efficiency in the implementation and administration of the Code.

#### Self-Governance Statement: Please provide your views on the self-governance statement.

Xoserve supports the position detailed in the Draft Modification Report regarding self-governance.

#### Implementation: What lead-time do you wish to see prior to implementation and why?

No later than 1<sup>st</sup> March 2017.

**Impacts and Costs:** *What analysis, development and ongoing costs would you face?*

Modification 602A is required to support the Project Nexus implementation. Any costs incurred by Xoserve will be incorporated within Project Nexus.

**Legal Text:** *Are you satisfied that the legal text will deliver the intent of the Solution(s)?*

Xoserve is satisfied the legal text meets the requirements of Modifications 0602 and 0602A.

**Modification Panel Members have requested that the following questions are addressed:**

*Q1: Respondents are requested to provide views as to whether Modification 0602 provides sufficient time for objections to be raised.*

Insert Text Here

**Are there any errors or omissions in this Modification Report that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

Xoserve has provided information to advise that Modification 602 cannot be implemented without negatively impacting the Project Nexus Implementation Date. This is not reflected within the Modification Report as this was identified after the final development work group. This matter was discussed at Panel in January 2017.

**Please provide below any additional analysis or information to support your representation**

0602 (and 0602A) solution amends a parameter to change the minimum number of calendar days required prior to a Confirmation becoming effective.

More detailed analysis highlighted a further constraint in UK Link systems that requires a minimum number of 4 Supply Point System Business Days prior to a Confirmation becoming effective. The UNC Modification 0602 solution would require this to be changed whereas the 0602A solution still observes a minimum 4 Supply Point System Business Days prior to the Supply Point Registration Date on D.

Analysis of changing this in the UK Link system would be material and would require further system changes that have not been accounted for, therefore Modification 0602 solution cannot be accommodated in the Project Nexus timeline.
