We believe that the measure identified within the Modification Proposal facilitates GT Licence 'relevant objective' f) 'Promotion of efficiency in the implementation and administration of the Code'. Cadent Gas concurs with the justification statement within the Draft Modification Report that this modification only seeks to amend the date for delivery of a new and revised UK Link Manual under the Data Services Contract (DSC) and therefore has no material impact on any of the self-governance criteria.

Implementation

This Modification Proposal can be implemented with effect 16 Business Days after approval by the
