UNC Modification Proposal 0853S - CDSP permissions to facilitate implementation of UNC 0701

Dear Bob,

Thank you for your invitation seeking representations with respect to the above Modification Proposal to which Cadent supports.

### **Do you support or oppose implementation?**

Support

### **Relevant Objective:**

- a) Positive
- b) Positive
- c) Positive
- f) positive

### **Reason for support/opposition:**

Cadent are supportive of this modification as it builds on Modification 0701 by allowing the CDSP, where a Shipper has not already done so, to reduce the booked capacity within the system to align with the relevant NExA.

This will ensure that the relevant Shipper is not technically in breach of code at Modification 0701 implementation date and also ensures that the relevant Shipper will not be paying for capacity which they cannot access.

## **Implementation**

We agree with the proposer that implementation of Modification 0853S should align with the implementation date of Modification 0701; currently set at 4<sup>th</sup> Nov 2023.

## **Impacts and Costs**

Nothing identified.

## **Legal Text**

We are satisfied that the Legal Text meets the intent of the Solution.

## **Are there any errors or omissions in this Modification Report that you think should be taken into account?**

No such errors or omissions identified.

## **Please provide below any additional analysis or information to support your representation**

Nothing further to add.

We trust that this information will assist in the compilation of the Final Modification Report. Please contact me on 07884 113385 ([andy.clasper@cadentgas.com](mailto:andy.clasper@cadentgas.com)) should you require any further information.

Yours sincerely,

Andy Clasper
