<b>Support or oppose implementation?</b>	Support
<b>Relevant Objective:</b>	a) Positive d) Positive

#### Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We support the principle of the change, as it is the right thing to do given the current situation where businesses are being impacted by the Covid-19 restrictions i.e. discontinued or reduced usage or increased usage due to being classed as an essential business.

This change will allow shippers to submit accurate SOQs which in turn will result in accurate charging.

We agree the modification will have a positive impact on the relevant objectives a and d.

#### Implementation: *What lead-time do you wish to see prior to implementation and why?*

Significant lead time would not be required

#### Impacts and Costs: *What analysis, development and ongoing costs would you face?*
