<b>Support or oppose implementation?</b>	Support
<b>Relevant Objective:</b>	d) Positive

**Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)**

We support the implementation of this modification and believe sharing NDM data by shippers/suppliers will lead to more accurate allocation and future profiles for class 3 & 4 customers.

**Self-Governance Statement:** *Please provide your views on the self-governance statement. In particular do you consider the Modification is suitable for Self-Governance?*

We support this modification progressing as self-governance.

**Implementation:** *What lead-time do you wish to see prior to implementation and why?*

As soon as possible

**Impacts and Costs:** *What analysis, development and ongoing costs would you face?*

We have not identified any major costs which would be associated to this change. Some resourcing time would be required to facilitate collating the sample data.

**Legal Text:** *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes

**Are there any errors or omissions in this Modification Report that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

No

**Please provide below any additional analysis or information to support your representation**

We note that the timeline to submit the data (5th business day of month) could be impractical to suppliers, and DESC's expectations should be managed accordingly.
