Support or oppose implementation?	Comments
Relevant Objective:	<p>a) None</p> <p>b) None</p> <p>d) None</p>

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We support the proposal for a reduction in timescale for the class 2, 3 and 4 sites to move into class 1 upon reaching a class 1 threshold. We agree that this will support the UIG taskforce in their overall efforts to reduce UIG. Additionally, we also agree with the additional reporting needed to help facilitate this.

Self-Governance Statement: *Please provide your views on the self-governance statement.*

We support the Modification Panel determination this this is suitable for self-governance procedures.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

Implementation should be carried out after shippers are able to review their processes and systems in order to implement this on their meter point portfolio.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

N/A

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

N/A

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

N/A

Please provide below any additional analysis or information to support your representation
