Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We agree with the proposer that some shippers do not submit replacement reads nor raise RFAs, which can lead to both imbalances for other shippers and future read issues for incoming suppliers if the transfer reads are not corrected, and that this modification will allow SARs that have not been progressed within a reasonable period to be managed by the CDSP.

Self-Governance Statement: Please provide your views on the self-governance statement.

We agree that the modification meets the self-governance criteria.

Implementation: What lead-time do you wish to see prior to implementation and why?

The modification should be implemented as soon as possible in line with the self-governance criteria.

Impacts and Costs: What analysis, development and ongoing costs would you face?

No significant costs identified.
