Support or oppose implementation?	Support
Relevant Objective:	d) None f) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We support the inclusion of the Electricity System Operator (ESO) into the Data Permissions Matrix and being recognised as a new user.

Self-Governance Statement: Please provide your views on the self-governance statement.

We support the self-governance statement as this is just adding the ESO as a new user.

Implementation: What lead-time do you wish to see prior to implementation and why?

We support a joint implementation date with IGT UNC 139. If these are approved at separate times the CoMC will be unable to approve until the last modification is given approval.

Impacts and Costs: What analysis, development and ongoing costs would you face?

No impact or cost associated as to this change as it is permissions modification.

Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?
