<b>Support or oppose implementation?</b>	Support
<b>Relevant Objective:</b>	a) Positive d) Positive

#### Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We support the solution proposed and believe it a sensible approach given the current climate. We support a process of validation and evidence production and the request of further clarification if needed.

#### Implementation: *What lead-time do you wish to see prior to implementation and why?*

Immediately upon approval.

#### Impacts and Costs: *What analysis, development and ongoing costs would you face?*

We do not anticipate any system changes to accommodate this change, but it will require some FTE to conduct the activity and to validate any requests which are put forward.

#### Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

No comment.

**Are there any errors or omissions in this Modification that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

There may also be sites which are eligible on the IGT network so we would support a cross-code review and an equivalent IGT UNC modification raising if necessary.

**Please provide below any additional analysis or information to support your representation**
