Your Reference: UNC Modification Proposal 0797 Urgent

## 0797 (Urgent) - Last Resort Supply Payments Volumetric Charges

Dear Bob,

Thank you for your invitation seeking representations with respect to the above Modification Proposal which Cadent would like to support.

### **Do you support or oppose implementation?**

Qualified Support

### **Relevant Objective:**

- a) Positive
- c) Positive

### **Reason for support/opposition:**

Qualified support on the basis approval of this modification does not create a delivery risk for either Gas Distribution Networks final price notifications or the CDSP's ability to deliver the solution.

### **Implementation**

This modification needs to be implemented as soon as reasonably practicable to allow the changes to take effect in April 2022. Sufficient time must be given for the CDSP and GDNs to carry out any changes, assurance and governance work for new charge types to be included in our price notification on 31 January 2022.

## **Impacts and Costs**

If implemented, the GDNs would need to amend their internal calculations/pricing models to align costs/price to the respective market sector.

## **Legal Text**

No further comments

## **Are there any errors or omissions in this Modification Report that you think should be taken into account?**

We have not identified any errors or omissions.

## **Please provide below any additional analysis or information to support your representation**

We trust that this information will assist in the compilation of the Final Modification Report. Please contact me on 07884 113385 ([andy.clasper@cadentgas.com](mailto:andy.clasper@cadentgas.com)) should you require any further information.

Yours sincerely,

Andy Clasper
