Dear Xoserve

Thank you for the opportunity to provide feedback on Allocation of Unidentified Gas (AUG) Process.

Please see below ScottishPower's response:

Overall ScottishPower are satisfied with the weighting factors published for 2021/22.

We also have one further recommendation for developing the AUGE process. We would like, for the next AUGE Year, for AUGE to publish a monthly profile underlying the weighting factors in the Final AUGS for 2022/23.

Please do not hesitate to contact me if you have any questions arising from this response.
Clairelouise.Roberts@ScottishPower.com

Yours sincerely,

Claire Roberts
