**Date:** December 2019  
**Our reference:** Unknown Projects Information  
Request from AUG Expert

Dear Colleague

As you will be aware, the AUGE carries out an annual assessment of Unidentified Gas as part of the production of the UIG factors. All sources of Unidentified Gas must be analysed and quantified, and a key component of this is the Unidentified Gas arising from independent networks (CSEPs).

Up until the implementation of Project Nexus in 2017, Xoserve provided us with data concerning Unknown Projects – i.e. CSEPs that are known to exist but for various reasons are not on their systems. An example of the data from this period is given in the table below. This was provided in snapshot files on a monthly basis so that changes in the population of Unknown Projects could be tracked over time.

YEAR	LDZ	Count of Unknown Projects	Sum Of AQ	Count of Supply Points
2016	EA	39	3,483,428	242
2016	EM	34	3,310,074	283
2016	LC	2	656,051	71
2016	NE	9	713,548	38
2016	NO	7	449,652	27
2016	NT	28	2,808,802	136
2016	NW	23	2,579,977	110
2016	SC	71	82,397,218	1,450
2016	SE	40	19,677,626	316
2016	SO	47	11,738,973	651
2016	SW	33	2,548,838	213
2016	WM	23	2,948,638	201
2016	WN	4	292,555	11
2016	WS	12	810,594	94
<b>Total</b>		<b>372</b>	<b>134,415,974</b>	<b>3843</b>

**Example Unknown Projects Snapshot**

Post-Nexus, Xoserve no longer have access to this data, and so an alternative source is required. We are therefore requesting this information directly from all Independent Gas Transporters. In the first instance we would be grateful if all Independent Gas Transporters could respond to us regarding the viability of

**Page 2 of 2**

supplying this data. No data itself is required at this point: if the approach is judged to be viable, a data provision regime can then be agreed between the AUGÉ and the IGTs. Please could initial responses be provided by Friday 31<sup>st</sup> January 2020.

The AUG Expert would like to thank you in advance for your support and cooperation in this matter. Please provide responses and/or any questions via the AUGÉ mailbox ([auge.software@dnvgl.com](mailto:auge.software@dnvgl.com)).

Sincerely  
for DNV GL

Andy Gordon  
Senior Statistician
