

Summary of Key Messages from DESC on 21st July 2021

Agenda Item Outcomes

Agenda Item 2.1: 2021/22 NDM Algorithms – Review Industry Responses

- Following no additional comments being received from the wider industry on DESC's proposed Gas Demand Profiles for Gas Year 2021/22, DESC was able to provide final approval. This means the published values are now final and will be used to update key systems such as UK Link and Gemini during August and September.
- Details of where to find the new profiles can be viewed [here](#)

Agenda Item 4.0: Agreement of Ad-hoc Workplan

- DESC reviewed and approved the CDSP's recommended plan for the upcoming Autumn/Winter period. Details of this can be viewed [here](#).
